empowerment has become a well used term across a wide variety of social work settings that involve dealing with people and their problems but is it a central part of good practice or an empty word and what of power it is a central theme of human services practice but like empowerment is often only loosely examined this book examines both the theory and practice of power and empowerment

this book uncovers how power operates around the world and how it can be resisted or

transformed through empowered collective action and social leadership the stakes have never been higher recent years have seen a rapid escalation of inequalities the rise of new global powers and corporate interests increasing impunity of human rights violations suppression of civil society and a re shaping of democratic processes by post truth populist and nationalist politics rather than looking at power through the lenses of agency or structure alone this book views power and empowerment as complex and multidimensional societal processes defined by pervasive social norms conditions constraints and opportunities bridging theory and practice the book explores real world applications using a selection of frameworks tools case studies examples resources and reflections from experience to support actors to analyse their positioning and align themselves with progressive social forces compiled with social change practitioners students and scholars in mind power empowerment and social change is the perfect volume for anyone involved in politics international development sociology human rights and environmental justice who is looking for fresh insights for transforming power in favour of relatively less powerful people

community power and empowerment synthesizes research and practice on the topics of community power and empowerment and by doing so address key questions in the practice community psychology and related fields the first section of the book will provide foundational information on community power and empowerment the second roles played by human development and organizational development in social change and how empowerment relates to health the book guides readers in designing empowering practices and interventions as well as programs of research and evaluation

most books about power only deal with the societal formula of the few having power over the enormously larger powerless masses and which is mistaken as the so called natural order of power but it is not well understood that this formula also requires social conditioning measures aimed at perpetuating the continuing depowerment of the powerless so that the powerful can have power over them this in turn requires the societal suppression and secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species but which are socially forced into latency in most it is broadly understood that power and secrecy go together but the scope of the web of secrets surrounding the larger nature of human power s is surprising as discussed in this volume i of secrets of power empowerment is difficult if the larger panorama of societal power and depowerment are not more full understood
